CLEAR PLAN

BOLD ACTION

SECURE FUTURE

The world is growing more uncertain. From the impact of the pandemic to war in Europe and the Middle East, you and your family deserve a secure future.

So we need a government with a clear plan to defend our priorities, protect our country and deliver the bold action that's required.

Rishi Sunak has shown he'll take bold action, even if it's difficult or unpopular – from supporting families with furlough and getting inflation back to normal to changing how we'll get to Net Zero.

» **Cutting National Insurance by a third**, with the long-term ambition to end this unfair double tax on work

» **Protecting pensioners' incomes with the Triple Lock Plus**, so everyone has dignity in retirement

» **Doubling free childcare**, so parents never have to choose between work and family

» **Changing how we get to Net Zero**, so we protect our environment without making you pay more

» **Securing our borders**, working with our international allies and stopping the boats with our Rwanda plan

» **Spending 2.5% of GDP on defence by 2030**, so our military has the resources it needs to meet any threat

LABOUR DON'T HAVE A PLAN

In an uncertain world, Keir Starmer can't give you certainty. He u-turns whenever a policy becomes unpopular or when he needs to please someone new. He doesn't have a clear plan – he just says whatever he thinks you want to hear.

From tuition fees to tax rises, higher spending to pensions, you don't know what Keir Starmer will do because he has no plan. Or if he does, he doesn't think you deserve to know what it is. The only thing he believes is that he deserves your vote.

Rishi Sunak has a **CLEAR PLAN** and will take the **BOLD ACTION** needed to deliver a **SECURE FUTURE**
